<b>Topic</b>	<p>Digitalization of the media - new opportunities for journalism and broader social participation and associated problems: Digital Divide, concentration of economic power in the media industry, lack of media freedom...</p> <p>We will use the developments in Kenya as our case study.</p>	<p>Digitalization in India - chances and risks for the society</p>	<p>Estonia is one of the leaders in the sector of digitalization. The once poor Ex-Soviet republic used the power of internet &amp; digitalization to become a high-tech country with a high-tech government. But this is not automatically leading to more direct democracy and a stronger position of local &amp; citizen media.</p>
<b>Questions to be discussed</b>	<ul style="list-style-type: none"> <li>• What opportunities do the new possibilities for participation offer journalism, compared to potential local problems?</li> </ul>	<ul style="list-style-type: none"> <li>• What effect does digitalization have for the society, the media and politics?</li> </ul>	<ul style="list-style-type: none"> <li>• What effect has the almost complete digitalization of a society on political, social and journalistic participation in decision-making?</li> </ul>

<b>Country</b>	<b>Kenya: Digitalization &amp; Media</b>	<b>India: Digitalization and Society</b>	<b>Estonia: Digital Empowerment &amp; Media</b>
<b>Topic</b>	Digitalization of the media - new opportunities for journalism and broader social participation and associated problems: Digital Divide, concentration of economic power in the media industry, lack of media freedom...  We will use the developments in Kenya as our case study.	Digitalization in India - Opportunities & Threats for the Media and the Political System	Is Estonia as a world leader in digitalization of the society also a leader in journalistic freedom? In the 2016 world press freedom ranking Estonia lost four places and is now on position 14, but still two places ahead of Germany. New laws putting pressure on journalists are one reason. Another issue is the russian minority.
